Public Consultation -
give us your views on the
public safety plan, setting
priorities for your local
police and fire services, and
on police and fire funding

NORTHAMPTONSHIRE
POLICE, FIRE & CRIME COMMISSIONER

**Northamptonshire Police, Fire and
Crime Commissioner Danielle Stone
is asking for your views on the
strategic plan for local police and
fire services, and for the budget that
funds them.**

The draft public safety plan sets out the
priorities for how local police and fire
services keep our communities safe.

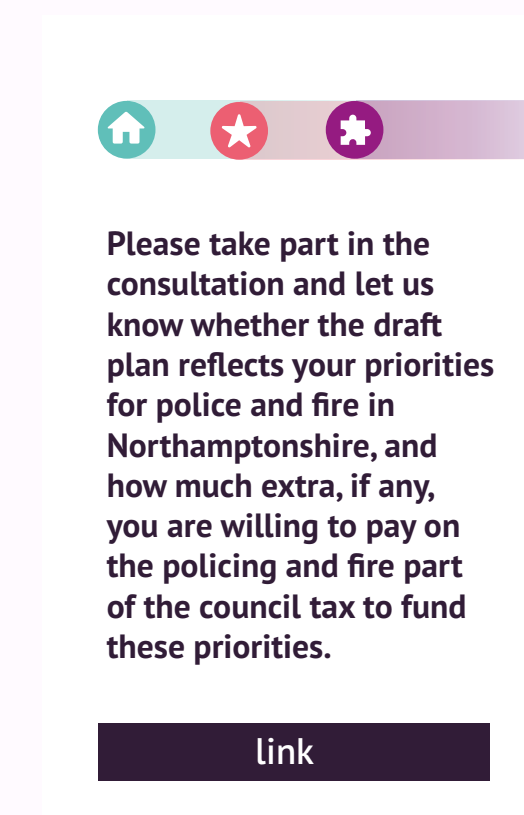

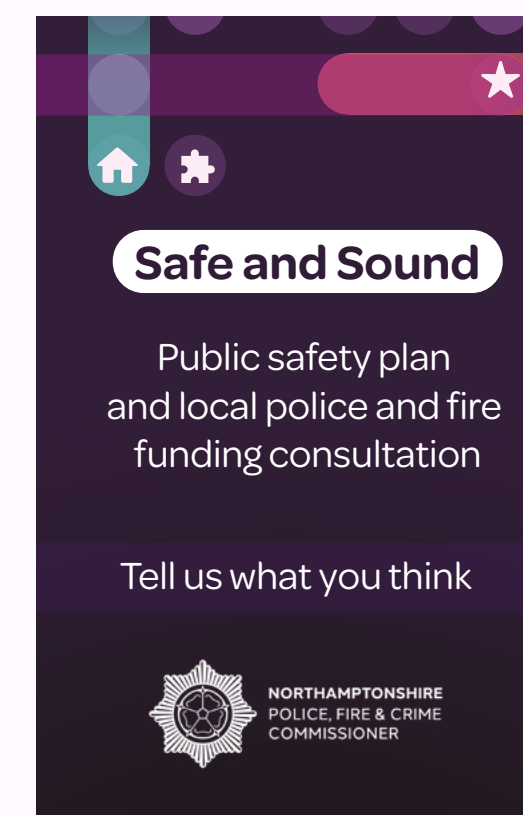

Funding for police and fire services is made
up of local and central government
funding. The Commissioner is also asking
for views on how much you would consider
paying for these priorities to be delivered,
through the local council tax precept.

Please take part in the consultation and let
us know whether the draft plan reflects
your priorities for police and fire, and how
much extra, if any, you are willing to pay on
the policing and fire part of the council tax.
